Success Story

"The networking environment neXco provides allows for building collaborative relationships within your individual chapter and across all chapters. The Ice Breaker and Professional Development portions of the meeting allow for meaningful discussion and relationship building. Their Fundamental Behavior section helps to build a great foundation for becoming a master networker. By following their platform and accountability requirements, we were able to close over \$300,000 of new business within six months of joining neXco."

neXco has proven itself to be the premier networking organization that any B2B professional must be a part of!"

STEVE BARBER

Managing Director for Supporting Strategies
and President of neXco National's Frederick B2B Chapter

Join us for in-person events, virtual speed networking, chapter meetings, virtual workshops, and other professional development.
